Local Moving Pictures Last Leap Year Dance

In Aid of Ladies Rest Room
Monday, Oct. 25

The Rest Room Committee of the Gleichen Board of Trade comprises a real live bunch of men. Last winter they equipped a set of rooms for the use of farm ladies visiting this town and raised sufficient funds to pay the rent. Now more money is required to keep the Rest Room going and the committee is busy.

On Monday, October 25th, they will put on a unique evening's entertainment, the first part to comprise local moving pictures of the Imperial Press visit, the stumpers, School Fair, Gleichen model farm and so on.

To complete the evening our girls are to be given a last grand chance at a leap year dance—no chance to escape fellows.

At present there is a man turning the country taking views and on Saturday he will be in town to show them at the School Fair.

Later these views will be shown in many of the world.

After a lingering and painful illness Mrs. J. S. Dickson passed peacefully away at her home at the C.P.R. Central Farm at Chatterbox, on Tuesday morning, Sept. 28th. The late Mrs. Dickson, a native of Drumbo, Ontario, was in her forty-second year. She came to Chatterbox some three years ago when Mr. Dickson was appointed manager of the C.P.R. Central Farm. Although not an inherent invalid, she had been interested and active part in everything that contributed to the building up of the new community. She will be greatly missed in church and indeed in all community circles. However, her Christian life and example will abide as an inspiring and a precursor.

Heavy fields and threatening outlooks deserted on Thursday afternoon Sept. 30th, when the whole neighborhood gathered to pay their last respects to the deceased lady, and extend sympathy to the bereaved husband. Beautiful floral offerings also paid their silent but eloquent tribute.

Friends from Calgary and Edmonton, and a brother-in-law, Mr. James Dickson, of Goshes, Ontario, attended the funeral.

Rev. E. N. Matheson, of Union Church, Gleichen, conducted the service, and interment took place in Gleichen cemetery.

Lady Dies on Train

Tuesday morning the body of Mrs. Thomas Beabrook was taken off the east bound train, after having died on the train between here and Calgary. Exact particulars of which could be obtained until the coroner can secure the evidence of the train man. At present there are many contradictory reports. The remains were removed to Geo. W. Evans undertaking establishment, who is shipping them this afternoon to Stettin. The deceased's son, Mr. J. Beabrook arrived here yesterday and will accompany the remains to Stettin for burial. He states his mother had been visiting him at Stettin for four months and was on her way home to England. When he said good-bye to her at Calgary she was bright and cheerful and appeared quite well. She was troubled with her heart, but had only one attack in Canada, which was two or three weeks ago.

Paroled with instructions from Mr. Robert A. McArthur, who having leased his land in Alberta and is going to cultivate his fruit land in California, I will sell by public auction at his farm on Wednesday, Nov. 17th, his homes, cattle and land. A detailed list will appear in a later issue or on posters. These chattels are of the highest standard. Prospective buyers will do well to be here in time. T. H. Beaton, Auctioneer.

Memorial Unveiled and School of Agriculture Opened on Tuesday, Nov. 9th

The Gleichen Soldiers Memorial will be unveiled and the new Gleichen School of Agriculture opened Tuesday, November 9th.

At 2 o'clock in the afternoon the memorial will be unveiled by Brig.-General A. E. Bell, C.M.G., D.S.O. General Officer Commanding M.D. No. 13.

At 3 o'clock the new School of Agriculture will be formally opened by the Minister of Agriculture. After the opening ceremony the school and buildings will be thrown open to the public for inspection.

At 6 o'clock in the evening there will be a banquet in the Opera House, open to those who have contributed to the memorial, the guests of the committee in charge will be included, the parents or other two relatives of the men who made the supreme sacrifice, the Great War Veterans, the students of the new school and all invited visitors.

The program in course of preparation will be announced later, but all interested may be assured that it will be worthy of those two most important events in the history of our town.

Appended are some facts about the Gleichen and District Soldiers Memorial.

1. It contains 25 tons of British Columbia granite.
2. It is built on a solid concrete foundation.
3. It stands about 14 feet high.
4. The base is 9 feet 6 inches square.
5. It honors ten memory of 10 soldier citizens who paid the supreme sacrifice, and whose names are placed on a bronze tablet which has been let into the face of the boulder surrounding the coping-stone.
6. It records, on bronze tablets, the names of 25 men who served. These names are arranged in alphabetical order and according to years of enlistment.
7. It bears a bronze inscription tablet which states by whom and for what purpose it was erected.
8. It was designed and built by an Alberta firm.
9. The bronze tablets were cast by an Alberta firm, by returned veterans, who forwarded a check to the Memorial Committee for their wages earned while doing the work.
10. It represents probably the very last enterprise which will unite the efforts of the town and pioneer Gleichen district.
11. It is erected in the Town of Gleichen, which has long been recognized as the centre of pioneer days.
12. It will stand a witness to coming generations of the spirit displayed by the pioneers of this district in a world crisis, and will also remind them of the price paid for the liberty they are expected to maintain and to develop.

GLEICHEN SCHOOL FAIR

To give some idea of the competition between the school children taking part in the School Fair Saturday it may be stated that there will be between fifty and seventy-five entries in several of the classes, and from present indications all classes will be well filled. In one school every girl is making an entry in every class in which she is eligible to compete.

It was said, perhaps as a joke, that the Agricultural Fair building might not be large enough to hold all the exhibits. Nevertheless, if the weather be favorable the building will at least be well filled and the writer is doubtful if there will be room enough to display all the exhibits of sewing, cooking, writing, drawing, woodwork, plants, insects, vegetables and grains.

In view of the labor and care which the children are putting into this work it will be unfortunate if the grown-ups were unable to spare at least a few minutes Saturday afternoon to inspect their work.

It is possible that the idea of the School Fair has been taken as a sort of challenge by the children and it is certain that your visit to judge of their success will be appreciated both by the pupils and their teachers.

The sports for the afternoon promises a keen competition and on page five the full program of events appears.

The entertainment that evening should not be missed for the children can always be counted on to do their very best, and Chautauqua is to combine with them.

Masquerade Dance Monday, October 18

The Veterans masquerade ball is now about all the young folks are talking of, and Thanksgiving night, Oct. 18th, will be an eventful one for many. Of course, no one admits they will mask, but all know there will be a big crowd and what others will wear that night. W. Strack is a busy man, but he is a safety-box of secrets—so what's the use. You will just have to be there and guess for yourself.

U.F.A. Plan Big Drive

The big U.F.A. membership drive which is being planned for the first week in November, will be held simultaneously with similar drives in Manitoba and Saskatchewan, so that it will be a real rallying week among the organized farmers' forces in the west. An army of canvassers will be at work; it is expected that 2,000 will be employed in Alberta, and a similar number in both Saskatchewan and Manitoba. Altogether the workers enlisted in the campaign in the three provinces should number not less than 10,000.

Each canvasser will be expected, cover his half-territory in a car, and canvasses are being assigned to go alone, but to fill up their cars with help. The U.F.A. workers in each district will be divided into two groups, one for the U.F.A. cause, promoting that feeling of comradeship which is necessary to a successful result of the campaign. There is strength in numbers. The good work or the U.F.A. cause. The good work or the U.F.A. cause. The good work or the U.F.A. cause.

The object of the drive is to cover the whole of the settled portion of the province completely on November 1st and 2nd, making a thorough canvass of every farm-house. If the canvass is not completed on those dates it may be continued over the next few days. November, but a strong effort will be made for quick concerted action on the days decided on.

The plan of the organization begins with an organizer for each federal constituency who will look after all his district, the work in that territory. Where it is impossible to get men to handle the whole constituency, two may be appointed to take the territory. These organizers will work through, and in some districts, through the District Boards. As far as possible, each District Board will have a direct responsibility for the organization of the drive in his own district. If unable to look after all his district, he will arrange with the constituency organizer to subdivide the territory. Then District Captains, each having charge of approximately nine townships, will be appointed. Their responsibility will be to get one canvasser for each half township in the territory in their charge, and working with the District Director to see that all plans are completed with these canvassers so that on November 1st they will start out to canvass every elector in their half-territory. Every one of the canvassers will be required to sign a pledge to do this work, and no one will be asked to undertake it when he is not prepared to do it.

When the drive commences on November 1st every canvasser will send by first mail the report of his daily work together with all the money received and duplicates of all receipts, to the U.F.A. Central Office, Calgary.

The work of perfecting the organization for the drive has already begun. Meetings of the various Constituency Boards will be held early in October, where the division of territory among the workers will be definitely decided upon. U.F.A. workers throughout the province are entering into the plan with the spirit and determination that ensure success.

By Royal Proclamation, His Excellency, the Governor-General of Canada, has again designated October 18th as Fire Prevention Day. On that day, on fire prevention subjects will be given in every school, public meeting will be held in many of the cities, towns and larger villages, and the overland transportation of property everywhere throughout Canada will be suspended to give special attention to the removal of fire hazards from their premises.

Fire waste is one of the most serious economic problems confronting Canada at the present time. The public attention has been attracted by the tremendous losses annually incurred by fire and the enormous expenditures rendered necessary to adequately protect life and property from its ravages. Seeing that at least seventy per cent of all fires are caused by carelessness and can therefore be prevented, it is the obvious duty of municipal authorities, fire department officials, boards of trade and other representative citizens bodies to bring the matter to the attention of the people.

Personal Service.

We regard as one of the most important factors in the success of our business. We know this is so because of the seeming pleasure of customers in our progress.

They notice every improvement in the store's Service; the added conveniences, and remark about the uniform quality of the merchandise we offer.

We attribute the "Personally Interested" attitude of customers to the quality of "Personal Service" we render them, and it is the good will of these customers that increases public confidence in our store, promoting its development and success.

This "Personal Service" is at your command, to help you in finding the right purchase. A satisfied customer means business. We want you to be satisfied and to feel that your needs are carefully studied by us so that you receive a dollar's value for every dollar spent.

A few days afterwards is to be the wedding of Elizabeth Von Bentinck, daughter of Count Von Bentinck, who was William's host at Amerongen, to Captain Ilemann. Preparations are under way for the reception of Prince Henry of Prussia who will soon arrive to spend ten days with his brother.

Trade Between Canada and Reds Blacked

Agents of the Soviet Government

Russia have made requests that Russian gold shipped to Canada to pay for goods will be guaranteed from any other claims against the Russian Government and the Canadian Government; however, it is understood declined to give any such guarantee or to be involved in any way in the shipment of Russian gold. Opening up trade relations between Canada and Russia is therefore at a standstill.

It is understood that the position taken by the Dominion Government is that if any individual Canadian wishes to trade with the Soviet, or any other government in Russia he may do so but at his own risk. There is no embargo in the exportation of Canadian goods to Russia, but the exporter will have to make his own arrangements as to pay, as no creditors can be furnished by the Canadian Government.

Fined \$50.00
An Indian was tried in the city court recently in Regina, on a charge of drunkenness. He refused to tell the source of the supply of liquor until in the presence of the Indian department officials when it transpired that Joseph Samky, an east end merchant had sold the whiskey to him under the guise of lemon extract. Samky was fined \$100.

Save for College

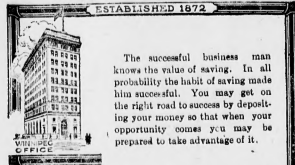

THE wisest thing you can do for your boy is to teach him to save. Open a savings account for him in this Bank to day, and let him prepare to go to college.

The account will gradually grow, when he is ready to go to college, it will be a saving with a definite object in view.

It is deposited every week for a definite period, and the interest is compounded.

WEDNESDAY, OCTOBER 6, 1920

Tuesday, November 9th, is designed to be a red letter day in the history of Gleichen. The day on which the Gleichen Soldiers Memorial Monument will be unveiled and the Gleichen School of Agriculture formally opened. Two great events marking Gleichen's past and future.

The Town Council has raised the water rates again to meet the increased cost of coal, wages, etc. Now the flat rate is \$5 per month and \$20 per 1000 cubic feet. At one time the flat rate was \$1.50 a month, which some thought high. Those who have been asking for water connection for a year or two back may not now be so anxious.

Already two of the Chinese restaurants have been connected with the town sewer and their old dumping ground covered with a very generous sprinkling of lime. Hurray! for our Town Council. They may now be elected for another year. It remains to be seen whether or not the Chinks will raise the price of meals now the odor that prevailed their eat shops has been eliminated.

According to Dominion Government estimates a the prevailing price of wheat about six hundred million dollars will be distributed among the population of the three Western Provinces from this crop alone. When to this the very substantial sum which must be produced from other grains, from root crops, from livestock and from poultry, it must be concluded that the prairie provinces are doing their share in the production of food for the world.

No little interest is being manifested in the several articles that have appeared in The Call concerning the aims and objects of Schools of Agriculture. It is only fair to state that those articles were written by Mr. G. B. Bodman, principal of the Gleichen School of Agriculture, and we are pleased to know his efforts are appreciated. Mr. Bodman has promised to write several more articles for The Call on the same subject, and we would advise our readers to read them all carefully. They will be the more interesting in view of the fact that the new Gleichen school opens on the 29th of this month.

The Calgary Western Canada states that the movement of this season's crop has started now in earnest as indicated by the number of cars that are arriving in Calgary and other points; but perhaps the most interesting feature in connection with this is that all cereals are maintaining their standards of excellence. Out of twelve cars of wheat inspected one morning last week by the Dominion Government grain inspector, eleven of them graded No. 1 Northern. The other one graded No. 2. The weight ranged from 81 1/2 to 84 pounds to the bushel. Oats that are also arriving are of exceptionally fine quality.

From all three provinces word comes that the threshing returns are showing much greater yields than anticipated and that the crop is grading very high. Alberta is admittedly the best of the three Western Provinces this year, as it was in 1915. The further harvesting operations progress, the closer does the parallel to the year mentioned become. It is believed that the final returns of 1920 will cause quite as much agreeable surprise as did those of five years ago. Unduly optimistic though it may seem to many, it is fully expected from present indications that a 300,000,000 bushel wheat crop and a 400,000,000 bushel oat crop will be obtained in Western Canada, and that Alberta will have to its credit nearly a third of the former and more than a third of the latter.

SCOTT BROS., Props, Phone 81, GLEICHEN

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the cultivation of alfalfa, the king of fodders, which secures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway irrigated block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices averaging \$50 an acre, with twenty years to pay and the privilege of a loan of \$2,000 for improvements; 6 per cent. interest; no principal after the first payment until the end of the fourth year; reduced interest if settlement conditions complied with, and no water rental for the first year. Contracts can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

U.F.A. Plan Big Drive

The Central Political Committee of the U.F.A. have now made definite plans for starting a membership drive to cover the whole province the first week in November. Manitoba and Saskatchewan have completed arrangements for a similar drive for exactly the same time. Therefore, this drive will extend throughout the three prairie provinces during the first week of November.

The object throughout the drive in each province will be the same: collect the sum of six dollars from every farmer in the province, and to make every farmer and farm woman, farmer's son and farmer's daughter a member of the U.F.A. and U.F.W.A. and political members in good standing and to place our political organ in every farm home. This plan is one dollar out of each six will go into a central organization fund, out of which all expenses of the drive will be paid. This drive is to be self-supporting. It is to be paid for entirely out of the proceeds of the drive, but it is planned that the local district political association and central will each receive one dollar out from the membership subscription.

This is a critical moment in the history of organization. Last year the decision to take political action and the large district conventions in every constituency aroused great enthusiasm. Ten thousand new members were added to our organization. This enthusiasm naturally has not subsided at boiling point, since there is no election immediately in sight. It is imperative, however, that we not only keep our organization at full strength, but that we build every energy to make the U.F.A. 100 per cent. strong in every district. All the forces of reaction and special privilege are arrayed against us, with determination and with resources greater than ever before, to smash this farmers' movement. The Premier of Canada, Hon. Arthur Meighen, has publicly denounced Hon. T. A. Cress and H. W. Wood as leaders of the "wreckers of Canada." That cry and the "discovery cry" and every other political subterfuge will be used against us. Some people will believe what they are told. It is imperative that every farmer and farm woman has got into the organization where they can learn at first hand what the organization stands for. Only then will they be proof against the insidious influence which will be brought to bear. This is the biggest united cooperative effort to enlist every farmer and farm woman in the farmers' movement that has ever been attempted. It should yield big returns. It is a drive put on in Manitoba for ten days last March yielded \$49,075; while the Liberty drive in Saskatchewan put on in October, 1919, and planned for one day only, yielded \$21,456.40. There is no question that results can be obtained in every constituency and every district. With co-operation as they are in Alberta this year, and the efficient machinery of our district organizations, the prospects for such a drive are splendid. It ought to be easily possible to reach the objective of fifty thousand members for the U.F.A. for 1929. The committee was also to enlist every member of the U.F.A. and U.F.W.A. as an active member of the political association. They believe it can be done.

The Gleichen Veterans have decided to give a magnificent ball on Thanksgiving evening. Be it will be a dandy.

One of the noblest works of creation is the sure of a bunk in Paradise, with thorough roses for a pillow by night and nothing but gold for sleep by day.

Notice to Creditors and Claimants

McKAY, HARDWARE CO.
GLEICHEN

SATURDAY, OCT. 9 GLEICHEN SCHOOL FAIR SPORTS

An excellent programme of school sports has been arranged for the children's fair on October 9th. Many of the events are between the different schools, and the merits of the various schools are under much discussion by the school children, of the neighbourhood.

Dark rumors that the local Indian school have a heavyweight team on the tug-of-war are confounded by reports from Standard that the boys of that village could pull a team of elephants. However, the afternoon of the 9th of October will decide the matter. The children of the various schools are to assemble in the public school yard at 1:30 under the charge of their teachers, and march to the Agricultural grounds in time to commence the sports at 2 o'clock.

At the Agricultural ground the public will occupy the grandstand and keep off the track. Special arrangements are being made in order that the children can occupy the centre of the grounds in charge of their teachers and the sports committee, who are making great efforts to obtain an announcer that can be heard all over the grounds.

The following is the revised list in the order in which they will be pulled off:—

- Boys' running race, age 13 and over—100 yards.
- Boys' running race, age 9 to 13—75 yards.
- Boys' running race, age 7 to 9—50 yards.
- Boys' bicycle race—1/4 mile.
- Girls' running race, 13 and over—100 yards.
- Girls' running race, 9 to 13—75 yards.
- Girls' running race, 7 to 9—50 yards.
- Relay race, 4 pupils from each school, 1/2 mile; each pupil to run 220 yards.
- Boys' and girls' skipping contest, under 10.
- Boys' and girls' skipping contest, over 10; child who can skip the longest.
- Boys' three legged race, under 10—50 yards.
- Girls' three legged race, any age—50 yards.
- Boys' high jump, 13 and under.
- Boys' high jump, 14 and over.
- Girls' high jump, any age.
- Boys' pole vault.
- Boys' slow bicycle race—100 yards.
- Girls' slow bicycle race—100 yards.
- (Last over the winning line wins.)
- Boys' long jump, 13 and under.
- Girls' tub-pulling race, any age—75 yards.

- Boys' long jump, 14 and over.
- Tug-of-war.
- Girls' horse race—1/2 mile.
- Boys' horse race—1/2 mile.

The above list should satisfy most children for one afternoon, and the sports committee will have all that they can do to handle the programme in good time. Between now and the fair day every child should look carefully over the above list and decide upon what they intend to enter for, so that they will not delay the afternoon's programme.

The committee in Gleichen have not been able to get into touch with the country districts as much as they would like, but it is doubtless on account of the harvest and threshing; but they have made all the arrangements as far as possible and look for a good crowd from all the rural districts. It is the first school fair held in the district and everyone should turn out to make it a success.
